

## **Design Notes of Felicity**

### **Air Holes of City**

Cities' development is just like playing a plateful game of Weiqi, The green areas disper-sed in the cities are air holes of this plateful game of Weiqi. And they are flowing of am-bience of cities' functioning and existing. Road to felicity of the ci-ties lies in stretch and stretch of green areas which circulate in constructing cir-cumstance of the cities.

### **Excessive Doing and True Happiness Not to be Obtained**

From Plato's ideal city to Howard's garden city, and from ancient times to this ye-ar are all set to pursue a wonderful city, but too much development have been becoming an already beautiful city more and more chaos and discord. At the sa-me time, more of the material gain cannot compensate for the loss, so we call u-pon the pursuit of happiness should be appropriate, if do excessive demanding happiness, certainly, we shall go to contrary our wishes.

### **Lovely and Warm Heart, Multi-Dimensional Knitting**

In a multi-dimensional city, constructing felicity depends on harmony among per-sons and that of human to nature. Let's knit the heart net of communicate to warm hearts.

### **Hydrotopia**

Water is existent support of human and also a pure sky of human hearts. In to-day's cities damaged in the ecological balance we are trying to build a hydrotopia to construct a fine new and strong and pervasive fragrance homesteads available for commensal of human and naturalness by water, since then, human beings is no longer worry about the city's well-being.

### **Weave The City**

To work out city is that every felicity city should consists in participation and communication of every person and working out city is to make every individual of a city form organic whole and that harmonious community should be taken as foundation of a felicity city.
